Management REPORT

No. 126

SERVICE AWARD CEREMONIES tonight (Wednesday) at the Inn will honor 119 Camas CZ men and women, the highest award going to Lyall Burnett, head of engineers, with 45 years of service. Two father-and-son pairs are on the featured list: Peter Rhode, beaters, will receive his 30-year pin while his son, Omar, paper machines, gets his 10-year award. Fred Carey and son, Donn, both papermakers, will receive 35 and 15-year awards respectively.

Two husband-and-wife teams are on the list. Paul Goiburn, maintenance, and Ada Goiburn, napkin, are due for 10-year awards. Frank Adams, shipping department, and wife, Elma, printing, have also earned 10-year awards. Retired associates will receive retirement pins denoting exact years of service; Clarence Cartwright, 11 years; Emil Richey, 22 years; Walter Browning, 28 years; and Clyde Kocher, 33 years.

Harold L. Zellerbach, President, Zellerbach Paper Company, and Executive Vice President, Crown Zellerbach Corporation, presents the service awards at the dinner tonight.

Mr. Zellerbach started his career in the paper business in 1917 as personnel manager of Zellerbach Paper Company, has been president since 1928. He is a graduate of University of Pennsylvania, a Mason (Shriner), and member of many business and charitable organizations. He has a daughter (married) and one son, Bill Zellerbach, who has worked at the Camas and West Linn plants, and was recently promoted to the new position of Director of Marketing Services division, CZ sales. Mr. Zellerbach will go from Camas to West Linn.

EIGHTEEN EMPLOYEES are participating in National Guard training activities at Ft. Lewis this week and next. Those in the group are Charles Higgins, Melvin Logan, Carrel Prince, E. C. Wittler, Lloyd F. Hansen, Albert Lynk, Jr., W. G. Robinson, David Hively, Charles D. Day, Raymond Grable, Jr., Harold Powell, James Bartkowski, Donald Boone, F. G. Holmes, William Conner, Robert Branstetter, James Bybee, and Ralph Trenary.

PAPER PRODUCTION last week attained three new records. On Tuesday, June 7, the day's output was 846.2 tons, breaking the previous high of 845.5 reached in January. On Wednesday, the crews proceeded to outdo Tuesday's peak, turning out 850.5 tons. On Friday, No. 9 machine achieved a new record with a production of 67.6 tons topping its previous high of 67.4 tons reached on May 23. Highest efficiency for the week was established by No. 2 machine, 97.5%. Nos. 7 and 15 followed with 96.1% and 95.6% respectively.

BOOKLETS presenting the ninth annual report of the retirement plan have been mailed from Headquarters to all members. Approximately 800 employees not yet eligible for membership will receive theirs shortly so that they have more information about the plan by the time they have accumulated five years of service. Pictures of several Camas retired associates and their homes or hobbies add to the interest of the book. We believe you'll enjoy reading your copy when it arrives.

VISITORS IN THE PLANT today and tomorrow (Wednesday and Thursday) are the 110 Japanese merchant marine cadets and 18 ship's officers, accompanied by the Japanese consul, Mr. Noboru Imagi, and Frank Womack and Vernon Harms, Portland Chamber of Commerce. Captain Muneo Chiba is also with today's group. The ship docked Thursday in Portland, the only U. S. port of call on its three-month training cruise. Crew members marched in the rose festival parade Saturday.

The Nippon Maru is one of the world's last four-masted full-rigged barques. She is 260 feet long, but her long bowsprit and overhang of the stern give her an over-all length of more than 300 feet.

AMONG TUESDAY'S VISITORS were 30 members of the natural resources committee of the National Chamber of Commerce. Meeting for the first time on the west coast, they included a mill tour in their 2-day schedule and were guests of management at luncheon.

THE ADJOINING is quoted from a letter sent by the Forest Products Safety Conference in recent session at Victoria, B.C.

V. C. Gault, CZ's safety supervisor, accepting the honor in behalf of the Camas plant, stated that all credit and responsibility for the safety record belong to our supervisors and employees. An engraved certificate noting the achievement is being prepared for our Division.

Crown Zellerbach Corporation
Camas Division, Camas, Washington

CONGRATULATIONS!

Your firm has been awarded the certificate for the lowest five year cumulative frequency in the Pulp and Paper Division. Your five year average frequency of injuries was 4.61. ...

C.R. Rustemeyer, Chairman

PORT ANGELES DIVISION: No lost-time accident during month just ended. They have now operated 61 consecutive, safe days (as of last Friday). ... BROKE all earlier monthly production records by turning out more than 14,000 tons of newsprint during May. They have also established a new daily record of 476 tons. ... SAVINGS BOND DRIVE under way to raise participation from the present 40% of employees now purchasing.

WEST LINN DIVISION: Largest group blood donation ever made in Clackamas county took place at West Linn mill, May 25, when employees gave 205 pints. An employee blood bank account has been opened, from which employees and members of families may draw.

FOUR ACCIDENTS in May (one PPD brought forward from January) makes a frequency for the month of 9.09; 10 accidents for the year to June 1 gives a frequency rate of 4.63. Last year for the same period seven accidents had occurred with a frequency of 3.22.

THAT RIVER FORECASTING is a science has been proved once again. Elmer Fisher, meteorologist, Portland weather bureau, predicted some time ago that the Columbia would rise to 25 ft. at Camas about the middle of June. Yesterday, June 14, the river was measured at 24.9 ft. Highest temperature for the week registered at the filter plant was 94° on June 10. Rainfall since January 1 totals 18.66 in, last year, 24.14 in.
